

Practising Well Community of Practice

Burnout and Balance

October 27, 2021

The Practising Well Community of Practice is an intentional conversation for shared learning hosted by the OCFP. The Practising Well Community of Practice is one component of the **OCFP's Practising Well Program**. You can reach us by email at practisingwell@ocfp.on.ca.

Practising Well is designed to support you in providing the best care possible for your patients with their **mental health, substance use disorders and chronic pain**. It is an active and engaged online community that gives you access to a deep well of knowledge to make your practice easier today, and to improve it in the future.

At the core of Practising Well are three distinct, yet interrelated, parts:

- Community of Practice
- Information Exchange: An easy-to-navigate online repository of information.
- Peer to Peer Connect: An opportunity to partner with another family physician in a one-on-one setting and share experiences and best practices.
