

Arexvy RSV Vaccine Update

- RSV vaccine authorized for use in adults 60 years of age and older and available for prescription.
- Pharmacists cannot (yet) administer however, family doctors can prescribe Arexvy and write on the prescription a direct order (i.e. “*please administer vaccine*”) to the pharmacist to administer¹.
- [Proposed Regulatory Amendments](#) would permit pharmacists, registered pharmacy students, interns, and pharmacy technicians to administer the RSV vaccine are still pending.

¹This can reduce barriers to access for patients and avoid multiple trips to the primary care provider, however, advise patients that pharmacists may charge patients for this service.”
